ANOTHER WHIG VICTORY! The last arrival from California brings 2 82588555888 partial returns of the late election for Governor, State Officers, Congressinen, &c.

The returns were not full enough to give the entire news, but enough was known to give a tolerably accurate guess at the result. Like Maryland, the people of California have had a trial of Locofocousm, and they lave spurned is from them. The N. Y. Tribune sums up the news, and the mora thereof in the following article :

When the State of California was organized, the self styled "Democracy" took her into their own hands almost as a matter of course. They chose their own Governor and Lieutenant, Members of Congress, L.g. islature and U. S. Senators, filled all Judicial and Executive stations from their own Нем. т Втакия Бата ста ста такия т. ими set, and seemed to act as if they had a warrance deed of power for all future time.

That confidence has probably proved their ruin. There were among them several old stagers from Tammany Hall, as well as adventurers from Ohio, Missouri and other Sintes. They had come to California to make money fast, and they had opened a P ESSERGENT SET SE XVEY LIBOYA So cach for himself appears to have determined to "go it while he was young," and make hay while the sun shone. They affixed a magnificent salary to every needful office, and being still insatiate, they invented new places on purpose to make provision for the faithful who stood outside with watery mouths after the first lot had been filled. In short they went straight ahead for No. 1. with a particularly resolute disregard of ex-

There is in any operation of this sort a perillous tendency to overdoing. The machine breaks down from being overloaded. So it was in California. The 'lucky holders' of the 'democratic' conjuring wand used i right and left till its potency was overtaxed. In serving up the State they cut their own slices rather too fat. The result, though not fully ascernined, is preuv well understood. The Whig Governor is certainly elected; so is probably the whole Whig State ticket; so is one certainly; so are probably both the Whig candidates for Congress; and if the Whigs have not the Legislature and the U. S. Senator, they lose them solely by the running of 'Independent' or half-and-halftickets in San Francisco, Sacramento and a few other counties. The Legislature might have been Whig, and doubless would have been but for unfortunate divisions among the Whigs of the central counties.

The moral of this result is one which all parties should take to heart. 'Democracy' has collapsed in California, not because the People are not democratic, but because they are so. They refuse to be swindled and made bankrupt for the benefit of the leaders and managers who jumped on the democraic hobby and rode it to destruction. They mean to be more economically and honestly governed henceforth, even though that resolve should expose them to be stigmatised as 'Federal,' or by some other equally horrible appellation. There is a great deal of common sense over in that same California, and whoever expects to clap green spectacles upon her and make her cat shavings for grass will pretty certainly fall short of his 8 2228886882 1spuszely man calculations. The omnipotence of regular nominations is there nearly ended.

159 3588 IMPORTANT TO MILLES .- The Ohio State Fair awarded the First Premium and five 94 83333444893 dollors to J. Hollingsworth, of Zanesville, Ohio, for his Ne Plus Utun Smut Machine. patented April 23, 1851. This machine operates on an entirely new plan, differing in a 128555355555 important particulars from any now in use, being very simple, durable and effective .-The machines entered in competition at the Fair were LEONARD SMITH'S celebrated N. Y. Machine. REYNOLD'S Wire Machine; and J. Hollingsworth's Ne Plus Ultra Machine. Millers desiring to avail themselves of the improvement are referred to BEAUMONT & HOLLINGSWORTH, of Zanesville, Ohio, who are authorized to sell machines or rights .-- O. S. Journal,

A WONDER OF NATURE .- A gentleman has brought here for exhibition, a pair of swins, (not living,) which show a singular and remarkable mal-formation. The two boilies have grown together from the top of the head, at the side, down below the chest. They have perfect features an limbs, except that there are but three eyes, the third organ | 10 5 4 5 5 appearing in the center, rather larger than the others, and having double pupils. They were born in Canada; the woman a native of the Island of Cuernsey, having had several chilbren previously. They lived five hours after birth, one dying some five minutes before the other. Physicians find in this stronge mal-formation, phenomena of interest, and others will doubtless consider them wonderful. We are not prepared to say that they are quito fit sudjects for general exhibition, dut leave it to the decision of the publie. - Rochester Democrat.

FARTHER RETURNS, Below we give all the returns we have r. ceived up to the close of the telegraphic offices, last evening. By some freak or other, these are wonderfully like jug handles -all on one side. When we gain one county, and two more, we shall have gained three members over the result last year!-The other side; the number we have lost; we leave our very amiable neighbor to figure out. He will very probably take t great deal of pleasure in doing so. Well the Whigs formerly indulged in the same luxury, and their turn will come again -When the leaders of Locofocoism run the same race of extravagance, recklessness, and ruin that they ran when in unchecked power before; when they squander the pubhe funds, permit the credit of the State to ge down; in short, show such palpable signs of incompetency and corruption as they did before, then the Whigs will again be appealed to, for the purpose of helping the State from the quagmire, and placing it on safe ground. Le: the people of Ohio remember the prediction.

From the Ohio State Journal, 16th-

Gov. Wood is elected by a incread majoriy. We have every reason to believe that the entire Locofoco State ticket is elected, though the meagre returns thus far received, only give the vote for Governor, and general results, without mentioning any names. It will be some days before we shall know how the case stands with Mr. Bliss. In this city where Wood gus about fifty majority, Mr. Bliss has one hundred and fity-three majority, thus showing that Breslin has run Wilkesville, James A. Hookins. behind his ticket over two hundred in Columbus alone. Of course this falling off has come from his own political friends .-It demonstrates that the knowing ones a mong them have a consciousness that he is entirely incompetent to manage the affairs of that important office as they should be or as they are now managed by Mr. Bliss. If other parts of the State have taken the Portsmouth, John W. White, Benjamin St same view of the case, Mr. Breslin is beaten. But we have no such idea, and we repeat elected. We will proceed to fill up our column of votes as soon as returns approach- Patriot, Dewitt C Howard.

While we regret that the Vigilance Committee have, by this act, been brought into direct collission with the constituted authorities, we cannot but approve their course in executing the two criminals. This condition of affairs was not sought by the Committee; it was rather forced upon them.

WARMING UP .- There is a newspaper called the Democrat, published at Eutaw, in Alabama, which has an editor so exhilarated at the prospects of getting out of the Union. if South Carolina will only lead off, that he gives free vent to his joy, after this fashion: "Should South Carolina secede-should she sever the silken bands that bind her to Pay up now and save cost.

Those who differ as to the policy of secession, will differ no longer—for their State will command Riffer, Pomeroy, Ohio.—The sul their allegiance. Those who have wandered away from their mother—those who have emigrated to other States, and who are anxiously looking to the part she will act in farmiture entirely new—is prepared to accommendate to traveling public. At the first tap of the nullification drum we fall into the ranks, and at the first peal of the secession bugle, we shall renew our old position in the line, for weal or woe, for life or death. Nor shall we be alone!

Hogs in Kentuckey .-- We addressed letter recently to a gentleman who has been traveling through Kentuckey, and has visited perhaps every county in the State, relative to the supply of hogs and the prospect of the grain and other crops, to which we have recived a reply. He says the number of hogs in Kentuckey this season is about the same as last, but they will be much heavier, and will consequently yield an excess of both meat and lard. Feeders are anneipating fine prices, and corn being plenty, and comparatively cheap, the hogs will be made as heavy as possible. For stock hogs, \$3,50 per 100 lbs, was paid in Madison county, and \$3,25 was paid for fat hogs for delivery. Cincinnati Price Current.

Kossuru -The great Hungarian is on his passage to our country. No man, we venture to say, was ever driven to our shores by the oppression of the old world, who will be more joyfully received than Louis Kossuth. He is emphaticelly the victim of tyranny, and seeks an asylum here from the persecution of the two most despotic Governments on the face of the earth. Austria and Russin. We have evidence on file, which induces us strongly to recommend this medicine to mar ien people who have not been blessed with off-

years standing, cured by Dr. Gupsott's Extract of Yellow Dock and Sarsaparilla, after every other known remedy had been tried with Washington, O., Pebruary, 1849.

This certifies that my wife, aged twenty seven years, has been suffering under the above comher bed. I have for four years constantly employed the best medical talent that could be propred in this section of the country, without any benefit whatever. I have also purchased every instrument recommenced for the obre of such disoses, all of which proved worthless. In the spring of 1848, was induced by my riends to try Dr. Guysott's Yellow Dock and Sarsaparilla, which was used for four months.— After she had used it for about four weeks, it

was evident to all of us that she improved rapidly, and gained firsh and strength, until she is ow enjoying excellent health. WM. MONFORT. We being neighbors to Wm. and Julia Mouort, know that the above statement as to the ickness of Mrs. Monfort, and as to the cure being

effected by "truysmes" paritis," to be strictly true,

> Brooming Grove, Dec. 1st 1849. Messes, S. F. Bensert & Co .- Gents; Some ime in 1843 I was attacked with King's Evil in my arm, which became so sare that I could not use it, and in 1845, mortification set in. I emplayed, at different times, each physician of cele city within my reach; all told me that my arr nust be amoutated. From the shoulder to the oteann, my arm was full of running sores, some of them as large as a fifty-cent piece. I then tried an Indian Doctor, who removed the morti-fied flesh, and stopped the mortification, but could not heal my arm. My strength at this time was completely exhausted, and my person much emaciated. I continued in this state until the summer of 1848, when I saw an advertisement of "Guysott's Yellow Dock and Sarsapailla," which I read attentively, and sent for one bottle of the article. After using it a few days, the discharges from my arm merca.ed, and assumed a light color, and less offensive odor. I sent for a second bottle, and while using it I found my strength increasing, and the discharges from my arm decreasing. I continued using it until I had used six bottles, though I felt myself perfectly cured before I used the sixth bottle .nce that time I have not fell any pain in my ana; no sores have reappeared, and I have no reason to doubt that it is thoroughly cured, for I bave no reason to doubt that it is thoroughly cured, for I can labor with it as well as I over

"Gnysott's Yellow Dock and Sarsaparitta" aclone cured me; I took no other remedy whil-using it, and had I used it at the first appear nace of the malady, I fully believe it would have saved me from years of suffering. And I most carnostly recommed every person suffering under any similar disease, to use "Guysott's Yellow Dock and Sarsaparilla," which will restore them o health. Yours in gratitude, O. M. LEONARD.
